

Spiral conveyor

- **Tubeless spirals; robust and tolerant against impurity**
- **Transport of: biomass, pellets, grain, sludge, food deposit, sugar beets, synthetics**

Conveyor capability: up to 100 m³/h
(dependent on product)

Spiral length: up to 20m horizontal
up to 9m vertical

Spiral diameter: 190/300/460/620 mm

Spiral thickness: 20-25 mm

Material: Stainless steel/steel

Conveyor line sludge project Moskau

Pre-assembled conveyor line Bremen

e.g. conveying of dewatered sewage sludge

Conveyor line waste incineration plant Bremen

e.g. conveying of plastic waste and synthetics

e.g. conveying of wood chips und pellets
